

Redefining Health Care: Creating Value-Based Competition on Results

Michael E. Porter and Elizabeth Olmsted Teisberg
Harvard Business School Press, May 2006

Table of Contents

Introduction

The Failure of Competition

Competing on Value

Competing on Results

The Structure of This Book

How Will Redefining Health Care Occur?

Chapter 1 Scoping the Problem

Chapter 2 Identifying the Root Causes

Positive-Sum Competition on Value

Zero-Sum Competition in Health Care

Competition to Shift Costs

Competition to Increase Bargaining Power

Competition to Capture Patients and Restrict Choice

Competition to Reduce Costs by Restricting Services

Dysfunctional Competition Proliferates Lawsuits

The Root Cause: Competition at the Wrong Level

Why Is Health Care Competition at the Wrong Level?

The Wrong Conception of Health Care Itself: The Commodity Mind-set

The Wrong Objective over the Wrong Time Horizon

The Wrong Geographic Market
The Wrong Strategies
The Wrong Structure of Care Delivery
The Wrong Industry Structure
The Wrong Information
The Wrong Patient Attitudes and Motivations
The Wrong Incentives for Health Plans
The Wrong Incentives for Providers

The Wrong Response from Employers

Chapter 3 How Reform Went Wrong

The Rise of Group Health Insurance
Limiting Payments to Physicians and to Hospitals
Managed Care
The Medical Arms Race
The Clinton Plan
Patients' Rights
Consumer-Driven Health Care
Quality and Pay for Performance
A Single-Payer System
Medical or Health Savings Accounts
Non-Reforms
Reforming Competition: The Only Answer

Chapter 4 Principles of Value-Based Competition

Focus on Value, Not Just Costs
Competition Is Based on Results

Competition Is Centered on Medical Conditions over the Full Cycle of Care

High Quality Care Should Be Less Costly

Value Is Driven by Provider Experience, Scale, and Learning in Medical Conditions

Competition Is Regional or National

Results Information Is Widely Available

The Information Hierarchy

The State of Results Measurement

Collecting and Disseminating Results Information in Practice

Innovations That Increase Value Are Strongly Rewarded

Innovation and the Nature of Competition

A New Innovation Model

The Opportunity of Value-Based Competition

Chapter 5 Strategic Implications for Health Care Providers

The Strategy Vacuum in Health Care Delivery

Too Broad

Too Narrow

Too Local

Defining the Right Goal: Superior Patient Value

Moving to Value-Based Competition: Imperatives for Providers

- 1. Redefine the Business around Medical Conditions*
- 2. Choose the Range and Types of Services Provided*
- 3. Organize Around Medically Integrated Practice Units*
- 4. Create a Distinctive Strategy in Each Practice Unit*
- 5. Measure Results, Experience, Methods, and Patient Attributes by Practice Unit*
- 6. Move to Single Bills and New Approaches to Pricing*
- 7. Market Services Based on Excellence, Uniqueness, and Results*
- 8. Grow Locally and Geographically in Areas of Strength*

How Would Industry Structure in Health Care Delivery Change?

Enabling the Transformation

Analyzing the Care Delivery Value Chain

Harnessing the Power of Information Technology

Systematizing Knowledge Development

Overcoming Barriers to Value-Based Competition

The Benefits of Moving Early

Chapter 6 Strategic Implications for Health Plans

Past and Future Roles of Health Plans

Enable Choice and the Management of Health

Measure and Reward Providers Based on Results

Maximize the Value of Care over the Full Care Cycle

Minimize the Need for Administrative Transactions and Simplify Billing

Compete on Member Health Results

Moving to Value-Based Competition: Imperatives for Health Plans

Provide Health Information and Support to Patients and Physicians

Restructure the Health Plan–Provider Relationship

Redefine the Health Plan-Subscriber Relationship

Overcoming Barriers to Health Plan Transformation

Establishing Trust

Improving Information

Building Health Plan Capabilities

Overcoming Provider Skepticism

Moving Ahead of Medicare

Encouraging New Mindsets

Redefining Culture and Values

The Benefits of Moving Early

Chapter 7 Implications for Suppliers, Consumers, and Employers

Implications for Suppliers

Missed Opportunities

*Moving to Value-Based Competition: New Opportunities for Suppliers
Getting Started*

Implications for Consumers as Subscribers and Patients

Limits of the Consumer-Driven Model

Moving to Value-Based Competition: New Responsibilities for Consumers

Implications for Employers

Missed Opportunities

Promising Initiatives

Moving to Value-Based Competition: New Roles for Employers

Chapter 8 Health Care Policy and Value-Based Competition

Broad Issues in Health Care Policy

Moving to Value-Based Competition: Improving Health Insurance and Access

Enact Mandatory Health Coverage

Provide Subsidies or Vouchers for Low Income Individuals and Families

Create Risk Pools for High Risk Individuals

Enable Affordable Insurance Plans

Minimize Distortions from Uneven Employer Contributions

Eliminate Unproductive Insurance Rules and Billing Practices

Moving to Value-Based Competition: Setting Standards for Coverage

Moving to Value-Based Competition: Improving the Structure of Health Care Delivery

Enable Universal Results Information

Improve Pricing Practices

Open Up Competition at the Right Level

Establish Standards and Rules that Enable Information Technology and Information Sharing

Reform the Malpractice System

Redesign Medicare Policies and Practices

Modify Counterproductive Pricing Practices

Improve Medicare Pay for Performance

Align Medicaid with Medicare

Invest in Medical and Clinical Research

Implications for Health Care Policy in Other Nations

Conclusion

Appendix A Making Results Public: The Cleveland Clinic

Overview

Cardiac Transplantation

Device Therapy

Non-Transplant Therapies

Ischemic Cardiomyopathy

Valve Surgery

Arrhythmia Therapy

Research and Innovations

Appendix B The Care Delivery Value Chain

Delineating Types of Care Delivery Activities

Mapping the Care Delivery Value Chain for a Practice Area
