Harvard University Advanced Leadership Initiative invites you to

*Think Tank I: Innovations in Healthcare*

March 10-11, 2011

Spangler Auditorium, HBS campus

The Think Tank on "Innovations in Health Care" comes at a critical time in our country and globally, as the technological opportunities for improved health, the demand for better and more equitable services, and the ever escalating costs of health, threaten the economic and social stability of nations around the world. The hope is to generate a lively discussion among panellists, the Advanced Leadership Initiative Fellows, and students. We believe that by considering innovations in health care in both industrialized and developing countries we may be able to find new ways of achieving the goals of health security, health care quality and health equity for people everywhere.

Harvard Business School faculty panelists include Nava Ashraf, Clayton Christensen, Michael Chu, Rosabeth Moss Kanter, Mikolaj Piskorski, and V. Kasturi Rangan.

See the ALI website for more information or to register.

**HBS HEALTHCARE INITIATIVE**

The Healthcare Initiative at Harvard Business School is a multidisciplinary program dedicated to innovative thinking in the healthcare industry. Launched in 2005, the Initiative brings together the extensive research, thought leadership, and interest in the business and management of healthcare that exists at HBS. For more information on the Healthcare Initiative, see our web site: [www.hbs.edu/healthcare](http://www.hbs.edu/healthcare).
