THE CHANGING ROLE OF BUSINESS IN SOCIETY

1

Business's societal role is here to stay

Business is the most trusted and seen as the most competent institution.

2

Prioritize customers and employees

Business must prioritize employees and customers above shareholders.

3

CEOs must take the lead on change

CEOs must inform policy and deliver results when it comes to jobs, local community investments, inclusion and sustainability.

4

Actions build trust

Companies must demonstrate they will keep their societal commitments.

REBUILDING TRUST IN THE U.S. MIDWEST

1

Leverage business's trust advantage

As the only institution not distrusted in the Midwest, business must deliver on high expectations to act on societal issues.

2

Invest in jobs, retraining and local communities

The Midwest is looking for business action to address the effects of automation and globalization.

3

Meet stakeholder demands

Businesses in the Midwest must address the needs and beliefs of employees and customers, their highest priority stakeholders.

4

Demonstrate real commitment

The Midwest is the Show-Me region: the most likely to suspect that business is performative, not committed, to societal engagement.
