RESEARCH INTERESTS

Real effects of disclosure; Institutional investors; Capital markets

JOB MARKET PAPER

“Ratings based incentives and institutional investor response: Evidence from the mutual fund market”

- I show that Morningstar ratings have strong incentive effects on mutual fund portfolio managers. These managers respond to the ratings’ incentives by trying to improve risk adjusted returns. I show that both investor flow considerations and career concerns drive managers’ response to ratings
-

ADDITIONAL RESEARCH

Jody Grewal, Aditya Mohan and Gerardo Pérez-Cavazos, Payment practices transparency and customer-supplier contracting

- We exploit the 2017 introduction of Payment Practices Disclosure Regulation in the United Kingdom to examine the effects of mandating disclosure on customer-supplier payment practices. We find that non-disclosing small and medium-sized enterprises (SMEs) reduce their accounts receivable by 7.0%. Cross-sectional tests indicate that higher expected reputational costs drive large firms to accelerate the payment of their accounts payable. Further, SMEs with stronger competitive positions and lower financial constraints are better able to capture the benefits.
 - Revise and Resubmit at Journal of Accounting Research. Presented at 2020 Utah Winter Accounting Conference (co-author presented), 2020 Hawaii Accounting Research Conference
-

Wilbur Chen and Aditya Mohan, Data driven technologies and the diminished impact of local newspapers in bank lending markets

- We examine the effects of local newspaper closures on information asymmetry between local and nonlocal banks. Local newspaper closures result in local banks increasing return on assets by 1%. Cross-sectional tests indicate that adoption of data driven lending technologies by non-local banks reduces local banks' gains from newspaper closures.

TEACHING EXPERIENCE

HARVARD BUSINESS SCHOOL (*Teaching Fellow*)

Summer 2019 - Accounting individual coach for incoming MBA student

Spring 2020 - Business Analysis and Valuation

Spring 2020 - Financial Analysis and Business Valuation: *Harvard Law School*

Spring 2021 - Business Analysis and Valuation

COLUMBIA BUSINESS SCHOOL (*Teaching Assistant*)

Corporate Finance

Capital Markets

Global Economic Environment I

Global Economic Environment II

Global Economic Environment III

Future of the world economy after the crisis

ACADEMIC CONFERENCES
